NURSERY SCHOOL AND PRIMARY SCHOOL, WATER PROJECT AND SCHOOL KITCHEN IN ATTAKROM

The municipality of Attakrom in the Brong-Ahafo Region of Ghana is in urgent need of a new building for its primary school and its nursery school. The children have to study in a makeshift hut which does not protect from the rain, so a lot of classes have to be cancelled. Another problem is that the children can be distracted easily and the consequence of this situation are bad results in exams. Another huge problem was the fact that – due to the lack of education and the given situation – the girls were easily seduced to other “activities”. Child pregnancies (pregnancies of girls under the age of 14) have increased dramatically.

The new school building will not only be used for the primary education, but also for workshops, awareness and information campaigns such as malaria prevention, infant, child and maternal mortality, as well as the prevention of child pregnancies. The water project and the school kitchen complete this project.

COSTS: NURSERY AND PRIMARY SCHOOL 60,000 EURO
MECHANIZED WATER SUPPLY 10,000 EURO
SCHOOL KITCHEN 3,000 EURO

WATER PROJECT IN BRODI

Thanks to the charity race that was organized by the pupils and teachers of the Otto Hahn grammar school in Nagold, Germany, we were able to extend the water supply in the village of Brodi. We have already installed a mechanized water supply in the village, but time has shown, that the three existing tabs were not sufficient for all (approx. 25,000 people). People had to wait in lines to get the clean drinking water and sometimes, they fought for it.

Now, there will be two additional water tanks and two additional tabs, so that everyone can get enough clean drinking water.

COSTS: 12,000 EURO

HEALTH CARE CENTERS IN TAIN DISTRICT

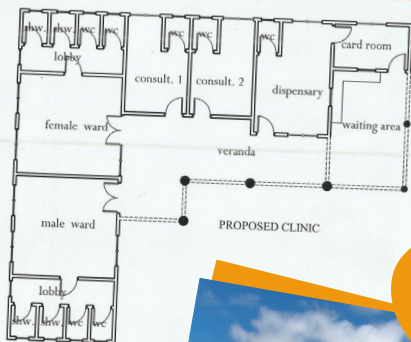

Tain District, Brong-Ahafo Region is a very poor and remote area in Ghana with poor health care. The villages of Tainso, Tanokrom, Tanso Njua, and Tiadene do not have health care centers. In case of medical need the people have to walk 35 kilometres to the region's capital Nsakaw to get medical help. Most of them cannot afford a taxi, so they have to walk the distance. If you are sick that is just impossible and can mean, that you are very likely to die.

Therefore, we are building a Health Centre – in two construction phases – in each of the four villages. A total of 41 villages with a total population of approximately 10,000 will benefit from the project.

COSTS:
APPROX. 200,000 EURO

PLEASE, SUPPORT US!

IN TAINSO (TOP) AND TANOKROM (LEFT)

THE EXPANSION OF THE DUNKWA KYEKYEWERE HEALTH CENTRE

The Dunkwa Kyekyewere Health Center was built in 1974. The following medical fields are covered by the clinic: prenatal care, reproductive child health, paediatric clinic, ultrasound examinations, laboratory, outpatient and inpatient care as well as patient monitoring. In recent decades, the population has risen sharply, which is why health care is no longer guaranteed for everyone.

The clinic has only one very small room for patients who need inpatient care. In addition, women, children and men are accommodated together. Furthermore, there is a lack of important equipment to ensure a smooth, daily routine in the clinic routine. There are not enough staff since there is no staff accommodation.

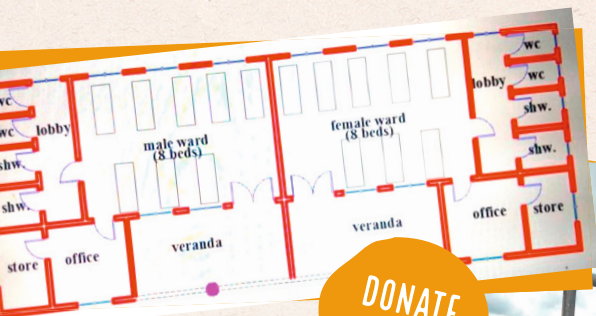

THE CLINIC HAS ONLY ONE (!)
VERY SMALL ROOM FOR PEOPLE
WHO NEED INPATIENT CARE.

The Dunkwa Kyekyewere Health Center should be expanded by a women's and men's ward (2018/2019), by additional beds for the Clinic of Reproductive Children's Health/Children's Hospital (2020) and by additional staff quarters (2021). Furthermore, the clinic is to be equipped with urgently needed hospital equipment (2018–2022).

COSTS: 145,000 EURO

THE PROJECT AREA FROM ABOVE

VOLTA REGION

URGENT NEED FOR SPONSORS!

Once again we were able to free children from slavery at Lake Volta – this time 22!

We provide medical and psychological help for the children – some of whom are severely traumatized. Our foster parents take loving and good care of them.

Please, join us in giving these children a future and become a sponsor!

**FOR ONLY 50 EURO PER MONTH YOU CAN SAFE AND
SECURE A PLACE FOR A CHILD IN OUR CHILDREN'S HOME!**

CHRISTMAS PROJECT: WATER FOR KORKYIKROM

Korkyikrom is located in the Bosome Freho District in the Ashanti Region of Ghana, about 21 kilometres away from Kumasi. About 1,500 people live there. Most of them are farmers. There is a nursery school, a primary school and a Junior High School with approximately 400 pupils.

There are only three wells for all of the 1,500 inhabitants and the wells are very far apart. People from neighbouring villages also come to fetch their water in Korkyikrom. So many people try to fetch water at the same time, that the wells collapse often. In that case, the people have to walk several kilometres to get to neighbouring villages and to water from a river.

COSTS: 12,000 EURO

Please, help us to change and better the situation by providing them with a new well for Christmas.

Therefore, we have started a fundraising campaign on our homepage:
www.madamfo-ghana.de/spendenaktion

PLEASE SUPPORT US!

- **Become a sponsor and supporter for a schoolchild in the school feeding programme.** With **9 EURO per month** you can feed a child.
- **Become an advocate against child trafficking.**
You can support a child in our programme against child trafficking in the fishing industry on Lake Volta with **50 EURO per month.**
- **Help us covering the current expenses of the orphanage.** You can give a child a board game with **15 EURO**, a school bag with **25 EURO**, and a book with **8 EURO.**
- **Help us clothe the children of the orphanage.** You can provide a complete set of clothes, underwear, and shoes for a child that was freed from slavery with **30 EURO.**
- **Provide a child with a school uniform.** For **10 EURO** we can sew a school uniform for a child and create jobs for seamstresses at the same time.
- With only **10 Euro**, you can support the **medical care of a new-born.**

- You can give children a school desk with 30 EURO.
- You can provide a double bed for two children with 100 EURO.
- With 400 Euro, we can provide medical training for an entire village and teach family planning.

Of course, there are many other projects and possibilities to support us! For further information, please visit our new website: www.madamfo-ghana.de

THANK YOU
SO MUCH!

THANK YOU

Dear friends, sponsors and supporters,
with all our hearts, we would like to say thank you
for your support. Without you, our work would not
be possible. Yours sincerely,
